DSC Settings

Following are the steps for starting the process of generating DSC on your machine.

Step 1 : Make your machine ready for generation of DSC.

1. Install CA certificates from the following path :

http://www.tcs-

<u>ca.tcs.co.in/index.jsp?rightHtml=includeJSP/chainDownload_current.jsp&leftTitle=C</u> <u>A%20Certificates&right1stTitle=Current%20Certificates&right2ndTitle=CA%20Certificates&highlight=0</u>

2. Download and install both CCA 2007 and TCS CA certificates onto your machine.

Step 2 : Change the security settings of Internet Explorer

Go To Tools > Internet Options > Security > Trusted Sites.

DSC Settings

4. Save the settings and close.

CHESS.

Step 3 : Now your machine is ready for generating Digital Signatures.

NOTE : Always use only INTERNET EXPLORER for generating Digital Signatures.
